

Feeling Lost in Translation?

Did you know that CancerCare Manitoba has access to WRHA specially trained and qualified Health Interpreters?

CancerCare Manitoba has improved its patient safety and quality of care by developing and implementing **Language Access** policies and procedures.

Qualified, confidential interpreters are available in-person or over-the-phone for appointments, health issues/concerns, medication instructions, counseling and more.

There is no cost to patients for interpreters.

Ask your Health Care Provider for information on Language Access.
